[Docket No. 99P-4648]

Grated Parmesan Cheese Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Sartori Foods Corp. to market test a product designated as "Grated Parmesan Cheese" that deviates from the U.S. standards of identity for parmesan cheese and grated cheeses. The purpose of the temporary permit is to allow the applicant to measure consumer acceptance of the product, identify mass production problems, and assess commercial feasibility, in support of a petition to amend the standard of identity for parmesan cheese.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than *(insert date 90 days after date of publication in the Federal Register)*.

FOR FURTHER INFORMATION CONTACT: Loretta A. Carey, Center for Food Safety and Applied Nutrition (HFS-158), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-205-5099.

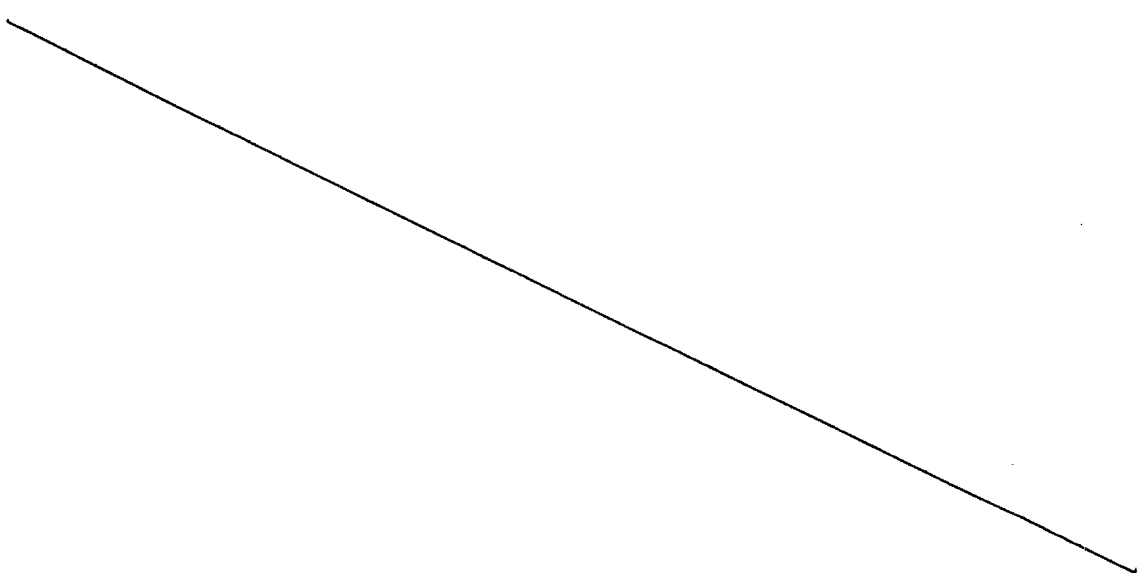

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity issued under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is giving notice that it has issued a temporary permit to Sartori Foods Corp., 107 Pleasant View Rd., P.O. Box 258, Plymouth, WI 53073.

NTP 1

The permit covers 28 million pounds of interstate marketing test products identified as “grated parmesan cheese” that deviate from the U.S. standard of identity for parmesan cheese (21 CFR 133.165) and grated cheeses (21 CFR 133.146) in that the product is formulated by using a different enzyme technology that fully cures the cheese in 6 months rather than 10 months. The test product meets all the requirements of the standards with the exception of this deviation. Because test preferences vary by area, along with social and environmental differences, the purpose of this permit is to test the product throughout the United States. Under this temporary permit, the parmesan cheese will be test marketed as grated parmesan cheese. The test product will bear the name “Grated Parmesan Cheese.”

This permit provides for the temporary marketing of 28 million pounds of grated parmesan cheese in 2, 3, 5, 6, 10, 15, 18, 20, and 50-pound sizes. The test product will be manufactured at 12 West Main, Plymouth, WI 53073, 2 East Main, Plymouth, WI 53703, and 9001 North Lander Ave., Hilmar, CA 95324. The product will be aged, grated, and packaged for distribution at 12 West Main, Plymouth, WI 53073, and 2 East Main, Plymouth, WI 53703. The product will be distributed throughout the United States.

The information panel of the labels will bear nutrition labeling in accordance with 21 CFR 101.9. Each of the ingredients used in the food must be declared on the labels as required by the applicable sections of 21 CFR part 101.

This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but not later than (*insert date 90 days after date of publication in the Federal Register*).
